CTI Mapping Tool User’s Guide

01 1. Main Screen

02 2. Log in

03 3. Database

- 3.1. Viewing Project Information
- 3.2. Searching for Projects
- 3.3. Adding New Projects

06 4. Map

- 4.1. Filtering Locations
- 4.2. Editing Project Details
- 4.3. Adding or Editing Locations
  - 4.3.1. New Projects
  - 4.3.2. Saved Projects
  - 4.3.3. Editing Location Details

11 5. Monitor

- 5.1. Selecting Charts

1 Main Page

To load the CTI Mapping tool in your browser, navigate to http://www.ctimap.org/. The main screen appears after a brief loading interval.

1. Main side bar
2. Social Media Buttons
3. Basic Map Controls

2 Log In

To log in, enter your username and password in the appropriate input forms.
Click on the Log in button to sign in.

1. Log In forms and buttons

3 Database Functions

3.1. Viewing Project Information

To select a project for viewing, click on its title in the database listing.

Details of the selected project appear in the Map sidebar and the map view zooms into the location or locations associated with the project. Some locations may appear as clusters, depending on the map's zoom level. [Note: Click on 'Map > Legend' to see the clustering thresholds.]

1. Project title

3.2. Searching for Projects

Search for a project by title. To begin searching, type the desired keywords into the text input form above the project listing.

Search results automatically appear as you type.

1. Text input bar
2. Project listing
3. Search results

3.3. Adding New Projects

To add a project, click on the 'Add' tab and fill in the project information. When done, click on 'Save'.

1. Add project tab

4 Map

4.1. Filtering Locations

To filter map locations, select one or more goals and a country. The number of markers appearing in the map view will increase or decrease depending on the combination of filters selected. Click on 'Reset' to revert to displaying all locations.

1. Filter parameters

4.2. Editing Project Details

To edit a project's details, simply click on 'Edit' in the Project Details tab.

Project details will now be editable. When done editing information, click on 'Save'.

1. Edit project details
2. Save project details

4.3. Adding or Editing Locations.

To add locations to a project, you may take one of two paths.

4.3.1. Adding or Editing Locations.

New projects. When adding a new project, click on 'Add Locations'.

The project's basic information is first saved, and then the map view displays tools for adding locations on the right-hand side. After adding new markers, click on 'Save Locations'.

1. Click here to add locations to a new project
2. Location editing tools

4.3.2. Saved projects.

New projects. When adding a new project, click on ‘Add Locations’.

The project’s individual locations will appear, ready for editing. After editing markers or adding new ones, click on ‘Save Locations’.

1. Click here to edit locations

4.3.3. Editing Location Details

To edit a location's details, simply click on 'Edit' in the Location Details tab.

1. Edit Location Details
2. Save Location Details

Location details will now be editable. When done editing information, click on 'Save'.

5 Monitor

5.1. Selecting Charts

To view a monitor chart, click on the dropdown menu and select a chart title. The corresponding chart will appear in the sidebar pane.

1. Click here to select a chart
